Forecast for Tuesday 03 May 2022

Weather: A lot of cloud expected for much of the day, this will give some light rain at times. Drier weather will slowly move eastwards from mid-afternoon, with low cloud breaking and lifting to allow a dry and brighter end to the day. Fells towards the M6 will be last to clear.

Chance of cloud-free hill tops above 800m: Little chance until mid-afternoon with extensive cloud down to 400 to 700 metres. This breaking and thinning from the west from mid-afternoon onwards.

Low cloud and visibility: Rather poor in hill fog and rain, but a marked improvement developing later in the afternoon as clearer conditions extend east.
